Cereals and Grain, Meat Processing, Bakery, Dairy Products, Fats and Oils, Processed Foods, Meat and Poultry Slaughter, Fish and Sea Food (QMP and QMPI programs)

### **Company Information:**

Fulton Food Safety Inc. has been in business since 1998 and employs a group of Consultants with backgrounds in Government Inspection, Microbiology (BSc), Food Science (MSc) and Public Health (MSc), and have expertise in a wide variety of food commodities. Our consultants have experience in food processing, labeling and regulatory compliance.

Fulton Food Safety Inc. develops HACCP/food safety programs and GFSI programs for regulated and non-regulated food commodities. We provide ongoing onsite support services to our clients to assist with updating and maintaining their food safety programs on a regular basis.

We conduct GAP audits for regulatory compliance as well as BRC GAP assessments and perform Reassessment audits as well as HACCP system audits for our clients. Fulton Food Safety Inc. employs team members who are qualified by the BRC (British Retail Consortium) Scheme Owners in the UK as Approved Training Providers (ATP) to deliver training courses on their behalf.

Fulton Food Safety also delivers public and customized training in Food Safety, HACCP & Prerequisite Programs, Regulatory Labelling and Internal auditing.

Fulton Food Safety Inc., designs food plants for non-registered food commodities as well as food plants for registration with either the Provincial governments or the Federal government (CFIA) for registered commodities. Plants are designed to meet acceptable operational flows, room layouts and operational activities.
