

Animal Health and Calving Workshop

Manitoba Agriculture and Manitoba Beef and Forage Initiatives invite you to join us for a workshop featuring multiple aspects of calving management, including nutrition, vaccinations, common calving challenges, and calf resuscitation.

Date: Thursday, December 11, 2025

Time: 9:45 a.m. – 3:00 p.m.

Place: Stepler Farms, Miami, MB

Scan QR code for directions or

From Miami, travel 6 miles West on HYW 23.

Turn South at Deerwood Rd (41W). Stepler Charolais sign at turn off.

Go 1 1/2 miles South. Stepler Farms is on the east side of the road

Agenda

Success Starts Before Birth: The Power of Late-Gestation Nutrition

– Dr. Gleise Medeiros da Silva, University of Alberta

Discover how maternal nutrition in the final trimester of gestation shapes calf development, health and lifelong performance.

Vaccines That Work: Setting Calves Up for Success from Day One

– Dr. Ryan Koetke, Morden Vet Clinic

Give your calves the best start with vaccine strategies that build strong immunity right from birth.

Hands-On Calving Solutions: Recognizing & Managing Calving Issues with

“Clover & Fluffy”– Dr. Shania Jack, Morden Vet Clinic

Get hands on practice correcting calving issues and tubing calves using Clover the Cow and Fluffy the Calf in a risk-free environment.

There is no cost to attend this workshop, but registration is requested for meal planning.
Lunch is provided by the Miami 4-H Beef Club.

**Please call or email to register by December 9, 2025,
1-844-769-6224 or agriculture@gov.mb.ca**
