

# SECTOR PROFILE AT A GLANCE

# Food and Beverage

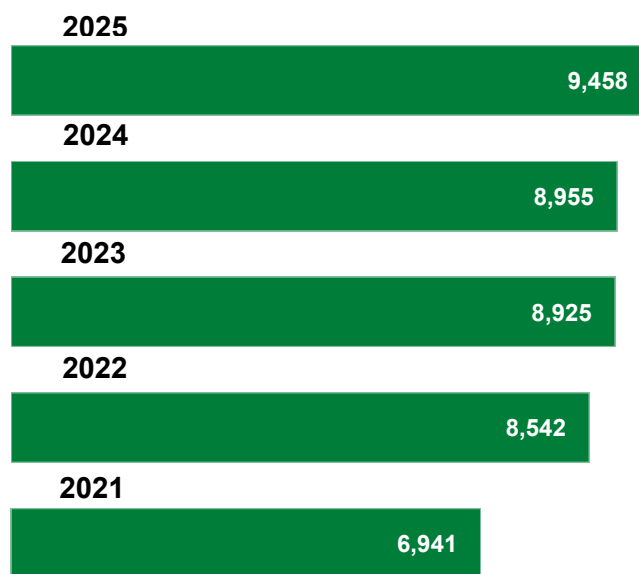

## Highlights

- Food and beverage processing is the largest manufacturing sector in Manitoba, accounting for more than 35 per cent of provincial total manufacturing sales in 2025.
- Manitoba's food manufacturing industry has maintained consistent annual growth, with sales rising from \$6.11 billion in 2020 to an all-time high of \$9.46 billion in 2025. The most recent data reflects a robust 10.8 per cent increase compared to 2024, reinforcing the sector's upward momentum.
- The sector directly employed 16,375 Manitobans in 2025, making it the largest manufacturing employer in the province.
- Food and beverage exports totaled \$4.31 billion in 2025, a decrease of 4.9 per cent, as compared to 2024. This accounts for 45.6 per cent of the total food manufacturing sales in 2025.

## Overview

- Manitoba has a vibrant food and beverage sector, with 428 manufacturing facilities<sup>1</sup>.
- Manitoba's three largest food processing industries are meat product manufacturing, grain and oilseed milling, and dairy product manufacturing.
- Increasing global demand for healthy, local, organic and functional foods provides growth opportunities for Manitoba's food and beverage processing sector.
- Manitoba has the largest pea-processing plant in the world, contributing to the growth of a protein-focused industry.
