

COVID-19

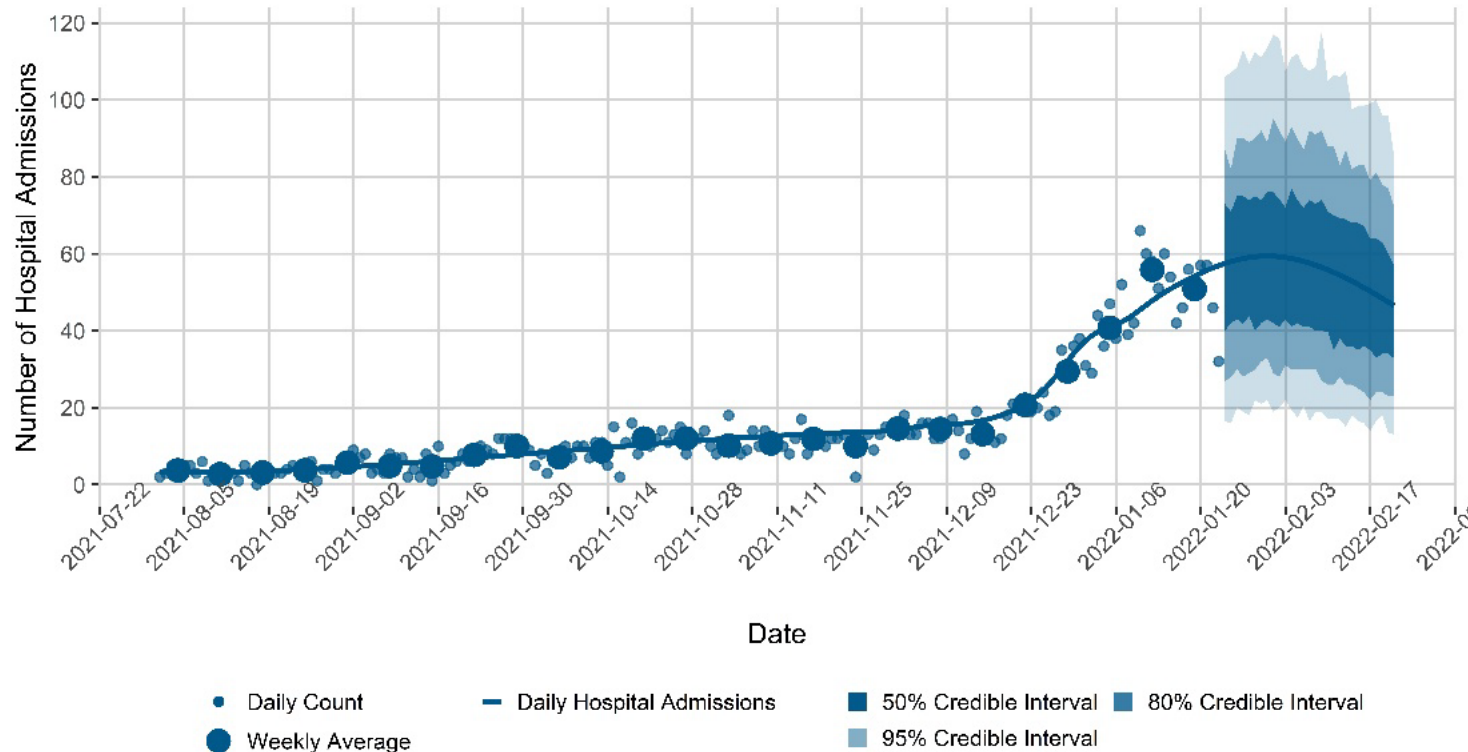

NOVEL CORONAVIRUS

Update from Dr. Brent Roussin

January 28, 2022

Manitoba 

Modelling: Hospital admissions

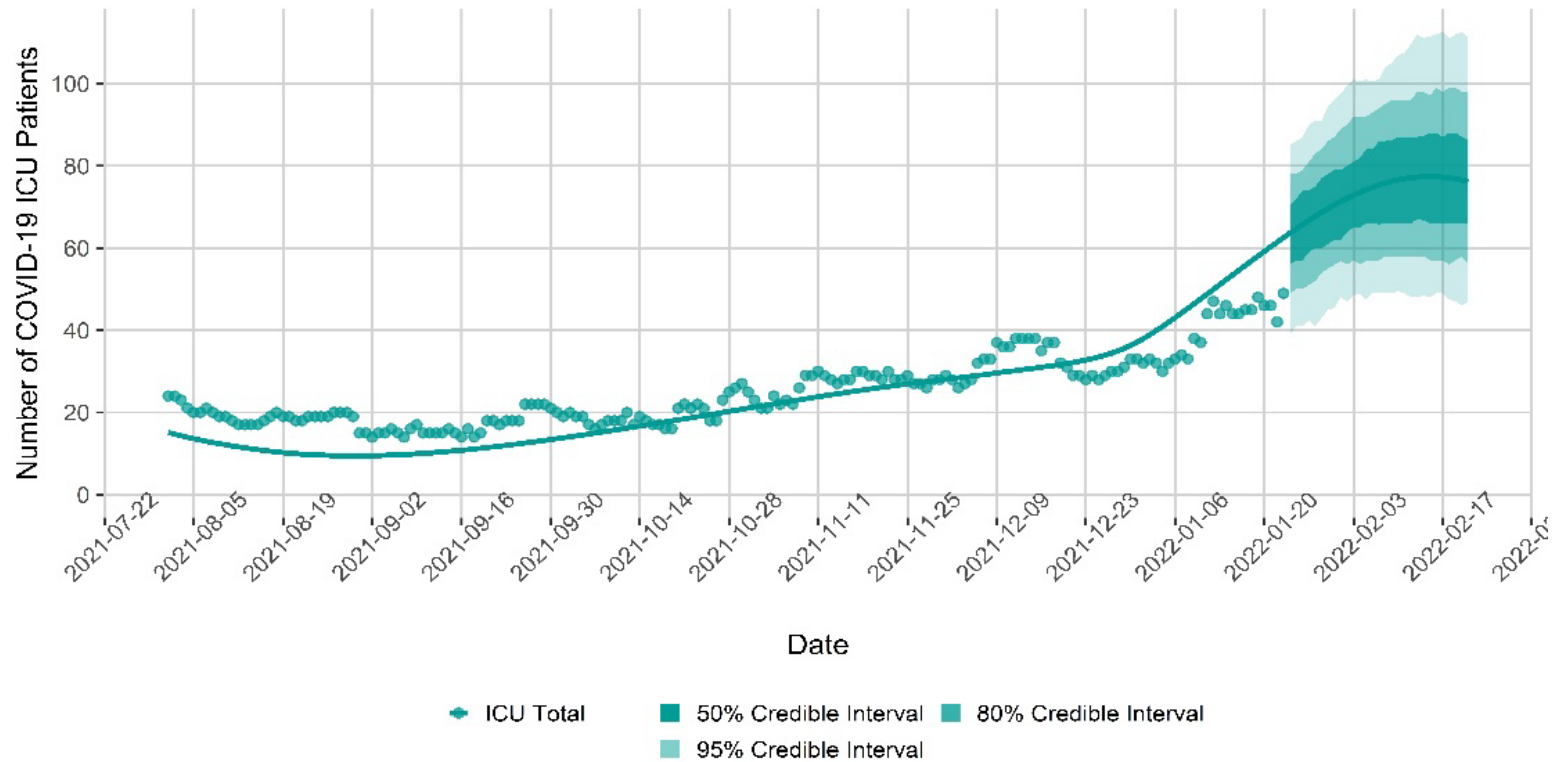

Data Updated: 2022-01-24

Manitoba may be approaching a flattened or soon decreasing stage in the curve.

Hospital admissions are expected to stabilize in the coming days.

Peak occupancy will likely occur later.

Modelling: ICU occupancy

ICU occupancy has increased slowly over time, but has remained fairly stable.
