December 2, 2020

Isaac Brock School  
1265 Barratt Ave  
Winnipeg, MB R3G 0L9

Dear Parent/Guardian of Students at Isaac Brock School,

Manitoba public health officials advised Isaac Brock today of two confirmed cases of COVID-19 present in the school between November 23-26, 2020 when the individuals may have been infectious. These cases are linked to the previous cases; however, there is no evidence of any transmission outside of that classroom.

Isaac Brock School is working closely with public health officials and following their recommendations. Based on the public health investigation, these exposures was assessed to be low risk overall for the school community. Classroom contacts are being advised to continue to self-isolate until December 10, 2020.

Please note: the school is not permitted to release the name or any identifying information about the confirmed cases of COVID-19 to any member of the school, community or media.

**If you have not been contacted via a separate letter, your child has not been identified as being exposed to COVID-19 from these cases.** However, if your child develops a new onset or worsening of any one symptom listed in Column A or any two or more symptoms listed in Column B (see table below), even if they are mild, immediately isolate them from others. It is recommended your child get tested for COVID-19 as soon as symptoms appear. You may go directly to the nearest COVID-19 testing location during their open hours. For the testing site nearest you, please visit [gov.mb.ca/covid19/locations.html](http://gov.mb.ca/covid19/locations.html), or call Health Links-Info Santé at 204-788-8200 or toll-free at 1-888-315-9257.

A	B
Fever/Chills	Runny nose
Cough	Muscle aches
Sore throat/hoarse voice	Fatigue
Shortness of breath/difficulty breathing	Pink eye (conjunctivitis)
Loss of taste or smell	Headache
Vomiting or diarrhea for more than 24 hours	Skin rash of unknown cause

	Nausea or loss of appetite
	Poor feeding (if an infant)

Please note: individuals with symptoms outlined in columns A and B, who choose not to be tested, must isolate for a minimum of 10 days following the start of symptoms. Isolation can be stopped at day 10 if the individual has been symptom-free for 24 hours.

For more public health information about COVID-19, please visit <https://manitoba.ca/covid19/updates/resources.html>.

Sincerely,

Dr. Lisa Richards MD MSc FRCPC  
Medical Officer of Health
