DR D Edossa Southman 20231115 James val col B.xlsx; NE-14-010-03W1_Site_b1_5k.zip;

Hi Desalegn

Thank you for your information request. I completed a search of the Manitoba Conservation Data Centre's (CDC) rare species database for your area of interest. This includes the primary locations NE-14-010-03W1; and 2km and 5km radius buffers from the footprint boundary.

I am attaching a Microsoft Excel spreadsheet summarizing these occurrences. The spreadsheet includes scientific and common names, the provincial (SRank) rank for each species as well as the Manitoba Endangered Species and Ecosystem Act, and the federal Committee on the Status of Endangered Wildlife in Canada (COSEWIC) and Species at Risk Act (SARA) designations. I'm also including the GIS files used to fulfill this request.

Further information on this ranking system can be found on our website at:

<https://www.naturereserve.org/conservation-status-assessment>.

These designations can be found at:

<http://web2.gov.mb.ca/laws/statutes/ccsm/e111e.php>,

<https://www.cosewic.ca/index.php/en-ca/> and

<https://www.canada.ca/en/environment-climate-change/services/species-risk-public-registry.html>.

Manitoba's recommended setback distances can be found at:

<https://www.gov.mb.ca/nrnd/fish-wildlife/cdc/pubs/mbcdc-bird-setbacks-nov2021.pdf>

The information provided in this letter is based on existing data known to the Manitoba Conservation Data Centre of the Wildlife Branch at the time of the request. These data are dependent on the research and observations of CDC staff and others who have shared their data, and reflect our current state of knowledge. An absence of data does not confirm the absence of any rare or endangered species. Many areas of the province have never been thoroughly surveyed, therefore, the absence of data in any particular geographic area does not necessarily mean that species or ecological communities of concern are not present. The information should not be regarded as a final statement on the occurrence of any species of concern, nor should it substitute for on-site surveys for species or environmental assessments. Also, because our Biotics database is continually updated and because information requests are evaluated by type of action, any given response is only appropriate for its respective request.

Please contact the Manitoba CDC for an update on this natural heritage information if more than six months passes before it is utilized.

Third party requests for products wholly or partially derived from our Biotics database must be approved by the Manitoba CDC before information is released. Once approved, the primary user will identify the Manitoba CDC as data contributors on any map or publication using data from our database, as the Manitoba Conservation Data Centre; Wildlife Branch, Manitoba Natural Resources and Northern Development.

This letter is for information purposes only - it does not constitute consent or approval of the proposed project or activity, nor does it negate the need for any permits or approvals required by the Province of Manitoba.

We would be interested in receiving a copy of the results of any field surveys that you may undertake, to update our database with the most current knowledge of the area.

If you have any questions or require further information contact me directly at colin.murray@gov.mb.ca or 204-914-2849.

Colin

Below is the result of your feedback form. It was submitted by CDC Information Request () on Wednesday, November 15, 2023 at 15:48:12

DocumentID: Manitoba_Sustainable_Development

Project Title: James Valley Colony Ltd

Date Needed: 2023/11/20

Name: Desalegn Edossa

Company/Organization: South-Man Design Group Ltd

Address: 8-851 Lagimodiere BLVD

City: Winnipeg

Province/State: MB

Phone: 2049639144

Email: desalegne@southmandesign.ca

Project Description: The information will be used to determine the impacts on species by the proposed expansion of livestock operation.

Information Requested: Would like to know if there are any species at risk or endangered in region that may be impacted by the proposed livestock operation.

Format Requested: MS or pdf document as email attachment.

Location: RM of Cartier on NE-14-10-3W

action: Submit
