Agnes Wittmann
Director of Environmental Approvals Branch
Department of Environment and Climate Change
Box 35
14 Fultz Boulevard
Winnipeg Manitoba
R3Y 0L6

Dear Ms. Wittmann,

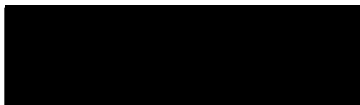

The Municipality of WestLake-Gladstone has approval under License No. 3203 for the removal of biosolids at the Gladstone lagoon located on 24-14-11W. We are diligently working towards completing the dredging of cells 2 and 3 for the summer of 2026.

The Municipality is applying for approval with the Public Utilities Board (PUB) and the Municipal Board to place this cost as a debt recovery on the Gladstone Utility users. Since both these boards take time to process and approve the applications, it would most likely be well in the fall of 2025 or early spring of 2026 when we receive approval.

I am requesting an extension to our license until late fall of 2027 to ensure that we can feasibly accomplish this very important project.

We gratefully appreciate your consideration and understanding in this matter and look forward to proceeding with this renewal.

Sincerely,

Karen Paz
CAO
